SUMMARY

Ph.D. research scholar in Information Technology at IIIT Allahabad working on multimodal disease prognosis, with hands-on experience in machine learning, deep learning (CNN), computer vision, NLP and Python backend development (Flask, Django, REST APIs). Built and deployed end-to-end ML applications, including a tuberculosis detection model with 97.7% accuracy (patent application filed), and completed internships at ParallelDots and SmartED. Seeking Machine Learning Engineer, AI Engineer, Data Scientist, Data Analyst and Python Backend Developer roles.

EDUCATION

Jun 2026 – Present	Ph.D. in Information Technology (Full-time), Indian Institute of Information Technology Allahabad (IIIT Allahabad) , Prayagraj <i>Research area: Multimodal Disease Prognosis</i>
Sept 2023 – May 2025	Master of Computer Applications (MCA), Sam Higginbottom University of Agriculture, Technology and Sciences (SHUATS) , Prayagraj <i>CGPA: 7.88/10</i>
Jul 2020 – Jul 2023	Bachelor of Computer Applications (BCA), Ewing Christian College , Prayagraj <i>CGPA: 7.78/10</i>

TECHNICAL SKILLS

Languages:	Python, SQL, C++, JavaScript
Machine Learning & AI:	Machine Learning, Deep Learning, Convolutional Neural Networks (CNN), Computer Vision, Natural Language Processing (NLP), TensorFlow, Keras, scikit-learn, OpenCV, MediaPipe, Data Augmentation, Model Evaluation, Model Deployment
Data Analysis & Visualization:	pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Data Cleaning, Feature Extraction
Backend & Web:	Flask, Django, REST APIs, API Testing, React, HTML, CSS
Databases:	MySQL, Firebase (Firestore)
Cloud & Tools:	Microsoft Azure, Vercel, Render, Git, GitHub

WORK EXPERIENCE

Backend Intern, ParallelDots, Remote Oct 2025 – Jan 2026

- Designed and executed automated and manual test cases for RESTful backend APIs powering the ShelfWatch product, improving API reliability and regression coverage.
- Collaborated with backend engineers to validate edge cases, error handling and performance across production-critical endpoints.
- Worked with Python in a production backend environment and followed quality assurance practices for API testing.

Data Science and Machine Learning Intern, SmartED, Remote Sept 2024 – Dec 2024

- Built an end-to-end sentiment analysis pipeline using NLP techniques, covering data cleaning, feature extraction, model training and evaluation.
- Performed exploratory data analysis (EDA) and visualization with pandas and Seaborn to derive insights from social media datasets.
- Applied text preprocessing techniques including tokenization, stemming and vectorization for machine learning models.

PROJECTS

LungVision: Tuberculosis Detection from Chest X-rays Feb 2025 – Apr 2025
TensorFlow, Keras, CNN, Computer Vision, Flask, Render | [GitHub](#) | [Live Demo](#)

- Designed, trained and evaluated a Convolutional Neural Network (CNN) to classify chest X-ray images as tuberculosis-positive or normal, achieving 97.7% accuracy using preprocessing and data augmentation.
- Deployed the model as a Flask web service on Render for real-time inference; visualized accuracy curves and confusion matrix with Matplotlib and Seaborn.
- Filed a patent application for the CNN-based tuberculosis detection system.

WatchBuddy: Movie, Series and Book Tracker Jul 2025 – Sept 2025
React, Firebase Authentication, Firestore, REST APIs | [GitHub](#) | [Live Demo](#)

- Built a full-stack web application with React and Firebase (Authentication, Firestore) to track movies, series and books, integrating the TMDB and Google Books REST APIs with live search suggestions.
- Implemented ISBN barcode scanning, custom lists, personalized recommendations and a light/dark theme; deployed on Vercel.

AirCanvas: Gesture-Controlled Virtual Drawing Sept 2024 – Dec 2024
Python, OpenCV, MediaPipe | [GitHub](#)

- Implemented a real-time virtual drawing application using hand-gesture recognition from webcam input, and optimized gesture tracking and rendering for smooth, accurate strokes.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900), Microsoft Sept 2025
Agentic AI Development, Eduxlabs, IIT Madras Aug 2025
Python for Data Science and Machine Learning Bootcamp, Udemy Mar 2025
Data Analytics and Visualization Job Simulation, Accenture (Forage) Jan 2025
Machine Learning Internship Certificate, SmartED Dec 2024
Introduction to Python, Microsoft Technology Associate (MTA) Aug 2021
HackerRank Certificates: Python (Basic), SQL (Basic), Problem Solving (Basic and Intermediate)
